- High Carbon Wires
- Spiral Wires
- Coated Wires
- Rope Wires
- Wires For Cable Industry
- Copper Coated Wires
- Binding Wires
- Mild Steel Wires

FLAT STITCHING WIRES

Whether its Flat stitching wire, Box stitching wire, or Flat galvanized stitching wires – Panchsheel stitching wires has every solution for your requirements.

Panchsheel Stitching wires is one of the Eminent flat stitching wires suppliers exporting stitching wires for corrugated boxes. We offer supreme quality of products to our clients. Before despatching to our clients, we conduct rigorous quality tests to ensure quality.

Grades of flat stitching wire

PREMIUM QUALITY REGULAR STITCHING WIRE

This stitching wire is the most affordable and most commonly used in corrugation industry. It is made out of mild steel wire and zinc coating is done through electro galvanised process.

RUST RESISTANCE PREMIUM QLTY STITCHING WIRE

This wire is also made out of mild steel wire but the zinc coating process is done through hot dip process which offers more rust resistance properties.

RUST RESISTANCE HEAVY QLTY STITCHING WIRE

As the name suggests these wire are heavily coated with zinc so it can withstand more moisture in boxes and protects from rusting. These wires have passed salt spray test of 100+ hrs.

PANCHSHEEL RUST PROOF STITCHING WIRE

Stitching wires offers 100% guarantee of rust-free after stitching. It is widely used for boxes where 100% guarantee is required after stitching.

Its available in copper/ brass / nickel grade and all wires have passed salt spray test of 150+ hrs
