Adhesives have emerged as a game-changing solution in the effort to make shipper boxes stapleless, and Pidilite is at the forefront of this transformative journey with its reliable, high-performing adhesives.

Our adhesives not only enable faster operations but are also seamlessly compatible with various applicators and machines, thereby contributing significantly to the reduction of waste in packaging processes. Pidilite's adhesives are optimized for high-speed Flexo Folder Gluers and quality detection systems products which sense precise

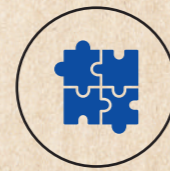

glue detection on machines fitted with UV cameras ensuring that packaging lines can operate efficiently and at maximum capacity.

Furthermore, these adhesives guarantee effortless transit, enhancing the integrity of packages during shipping. They are particularly well-suited for large shipper boxes, where their strength and durability shine. Pidilite's commitment towards quality makes us a trusted partner in the journey toward staple less packaging solutions.

### BENEFITS

OPTIMIZED FOR HIGH-SPEED FLEXO FOLDER GLUERS

COMPATIBILITY ACROSS ALL TYPES OF GLUE APPLICATORS

ENSURES EFFORTLESS TRANSIT

COMPATIBLE WITH GLUE DETECTION SYSTEMS HAVING UV CAMERAS

IDEAL FOR LARGE FORMAT SHIPPER BOXES

### WATER BASED ADHESIVES

Product Name	Nozzle Applicator	Wheel Applicator	High Speed	Medium Speed	Slow Speed	Special Features
<b>Fevicol FFG**</b>	✓		✓			UV camera detectable grade
<b>Fevicol CPW*</b>		✓	✓			High Green strength, high heat & cold resistance
<b>Fevicol 2000 L*</b>	✓		✓			Good rheology, high heat and cold resistance
<b>Fevicol 3000 L</b>	✓		✓			Low viscosity, very high Green bond, suited for shopfloors with low ambient temperatures
<b>Pidivyl 3110</b>		✓	✓			High bond strength with moderate viscosity
<b>Pidivyl FS 35/45</b>		✓		✓		Moderate viscosity with good bond strengths
<b>Pidivyl AG 99</b>		✓			✓	High open time with high bond. Also suited for manual pasting

### HOTMELT ADHESIVES

Product Name	Nozzle Applicator	Wheel Applicator	High Speed	Medium Speed	Slow Speed	Special Features
<b>Fevicol Jowat 851.10</b>	✓		✓			PO based hotmelt with high bond strength for large format shippers
<b>Fevicol SA 77 BB</b>	✓		✓			EVA based hotmelt with high bond strength for large format shippers
<b>Fevicol SA 75 IC</b>	✓	✓		✓		High open time for shippers used in the deep freeze industry

### COATINGS

Our Water Repellent Coating - Fevicol Aquashield is suitable for application on Kraft Paper used for making Fruit Trays as well as Shippers used for Export markets. They can be applied by both Gravure and Flexo Coating methods.
